Dear Mike,

This morning I asked about your name in Atlantis and was told it was Arutmos meaning "High Flying Raven" or "One With Understanding Above". That particular life you were a student of mine as you were again in Egypt, Greece and Israel. It appears that you have been the one who has helped me better handle this world so I can then express the world I know, which is spirit. In Israel in one life we were contemporaries or peers serving in the same capacity but in different parts of Israel.

At any rate, in Atlantis, you were a student of mine from the age of 5 on at the age of 26 you became a priest in the capital where you began service to the ruler Jahn. Your relationship quickly grew to one of warmth and mutual love and Jahn often referred to you as his long lost brother. Which is yet a whole 'nother story.

Eventually at John's illness you took over most of the power of govt with his wife, Lynn, and ruled until your death some 38 years later.

You did hand over some authority to John's daughter, now his wife, when she came of age and married, Chuck, but the majority of decisions rested on your shoulders because of your knowledge and understanding of how best to handle the govt and the people.

We remained close friends until my passing when you were about 32 and even after that I often came to you in dreams to advise you and share ^{with} your knowledge you needed to continue in your path.

I also asked St Frances about a retreat and what he felt was best for you. He said he would guide to the proper place at the proper time. There is no need to go to Italy to retreat for you would find yourself instructed there. Rather something will

Soon present itself in the States
which will offer you what you
are looking for.

St Francis showed me one place
in the Dallas area which I will
check out for you and see what I
can find. He says it is time for
you to come in touch more with
inner self again for your life
of service to humanity is now to begin
expanding. I will send you a
copy of what I received for myself
for I also feel it relates to you and
John.

Must go for now and open the
store. These hours are beginning
to take its toll, I am afraid.
I think my body is older than
I thought for it isn't as easy to
keep up the pace for some reason.
So, I am going to try to work on it
and get it in better shape, if I
am going to stay awhile. It is a shame
this world is so, well that is not important
must open up for now, Love Jim,
